

Orthopedic Physical Therapy

Policy: Diagnosis

Diagnosis entered in patient's DIAGNOSIS field on the evaluation template on the patient's first visit by the Physical Therapist in the ICD-10 format.

The Body Part that will be treated must be listed as #1 ICD-10.

Must have a minimum of (2) ICD-10's.

If ICD-10 is not the same as the MD's referring ICD, it needs to be brought to the attention of the billing office so that they can call the MD office and get the ICD rectified.
